

Progress Book Email Update

Parents if you have returned your Progress Book authorization form to school and have not yet received your username and password yet there could be different reasons you do not have them.

First, I may have forgot and thought I had already emailed the information.

Second, if you are new to the district, our tech person only runs a list of new students every month or so and I can not send the information out until it arrives in our office.

Third, in certain situations the email is blocked as junk mail. We have had instances where parents delete their junk mail without looking at it first. This seems to happen more with yahoo accounts than some of the others.

As always if you have any concerns with this situation or any other school related matter please call the school during normal school hours 7:45 to 3:30. Thanks for your understanding and patience.

Sincerely, Mr. Snyder
